PROJECTS

AI BUDGET SORTER

- Developed a budgeting tool using OpenAI's API to classify into Needs, Wants, and Savings based on the 50/30/20 rule
- Designed a clean user interface with a pie chart using Chart.js to visualize financial distribution
- Implemented natural language input parsing and a warning system for budget threshold breaches
- Added duplicate detection and item comparison for smarter categorization

Money & Minorities Website

- Created a centralized digital hub for M&M using HTML, CSS, and JavaScript
- Integrated the AI Budget Sorter, an AI-powered chatbot for financial Q&A, and curated a library of educational resources
- Designed with accessibility and inclusivity in mind to better serve underrepresented students
- Continuously updated to reflect evolving user needs and engagement strategies
